EDUCATION

- 2019 – Present **M.S. Computer Science**, with a focus in Human-Computer Interaction
Virginia Tech, Blacksburg, VA
Committee: Dr. Kurt Luther (Advisor/Chair), Dr. Andrea Kavanaugh, Dr. Chris North
Courses: Models & Theories of HCI, Software Engineering, Advanced Machine Learning, Research Methods in CS, User Interface Design, Adv. Topics in HCI: Participatory Wellbeing of Underserved Communities
- May 2019 **B.S. Computer Science**, Virginia Tech, Blacksburg VA
Minors in Industrial Design and French
GPA: 3.65/4.0 – Magna Cum Laude Honors Graduate – Dean's List all semesters

EXPERIENCE

- 2019 – 2020 **Crowd Intelligence Lab at Virginia Tech**
Graduate Research Assistant – CrowdTrace Project
Advisors: Dr. Tianyi Li, Dr. Kurt Luther, Dr. Chris North
- Assist in design, implementation, and evaluation of CrowdTrace system for visualization of provenance in distributed sensemaking.
 - Assist in data analysis and synthesis of quantitative and qualitative data from evaluative usability studies and surveys.
- Summer 2019 **SAP Concur**
Full-Stack Software Design Engineering Intern
- Design a micro-service to fulfill the GSA City Pair Program's testing requirement as part of the Govt. R&D team. The design incorporated AWS RDS' MySQL service using Golang and proved to provide a more resilient and flexible system design for data storage and data generation, as well as more flexibility for testing, data visualization and result reporting.
 - Implement the micro-service which improved testing performance (100 tests/week to 50 tests/hour). The micro-service portability permits it to be migrated commercial team projects as well.
- Spring 2019 **Materials and Design Lab (MaD Lab)**
Undergraduate Research Assistant – Tooling Bamboo Growth Project

Advisors: Prof. Jonas Hauptman (College of Architecture and Urban Studies, Virginia Tech)

- Design system wireframes for CNC machine tailored to Bamboo. Schematics include 4-axes in addition to a mirrored y-axis and supported by LinuxCNC (MachineKit) and BeagleBone boards.
- Research user interface alternatives for MachineKit to enable customization of controls for the Bamboo CNC machine.

2017 – 2018 **syNeRGy Lab at Virginia Tech**

Undergraduate Researcher - Parallel Programming with Pictures Project

Advisor: Dr. Wu Feng

- Assemble generalized modules to teach “parallel programming with pictures” for relevant pedagogical venues, e.g., CS 2104, Let’s Code Blacksburg, and so on. Modules engage students to work with serial and parallel computing concepts and interact with the block-based language “Snap!”
- Participate in Women in Computing Day by assisting, tutoring, and walking through the “parallel programming with pictures” modules with the attendees

PUBLICATIONS

Peer-Reviewed Conference and Journal Papers

- 2020 Tianyi Li, **Yasmine Belghith**, Chris North, Kurt Luther. **CrowdTrace: Visualizing provenance in distributed sensemaking**, *VIS 2020 Paper*

Posters and Demos

- 2019  **Yasmine Belghith**, Mahira Sheikh, Jack Danisewicz, Josh Wenger, Hani Awni, Scott McCrickard. **Accessibility Map @ VT**, *VTURCS Spring Research Symposium, Virginia Tech. Blacksburg, VA, USA. 2019. (Poster) (Capstone Award 2nd Place)*
- 2019 **Yasmine Belghith**, Jooyoung Whang, Carlisle Hughes, Steve Harrison. **Street Art: an immersive VR experience**, *VTURCS Spring Research Symposium, Virginia Tech. Blacksburg, VA, USA. 2019. (Poster, Demo)*
- 2019 **Yasmine Belghith**, Jooyoung Whang, Carlisle Hughes, Steve Harrison. **Street Art: an immersive VR experience**, *ICAT [Creativity + Innovation Day, Virginia Tech](#). Blacksburg, VA, USA, 2019. (Poster, Demo)*

TEACHING

Virginia Polytechnic Institute and State University (Virginia Tech)
Graduate Teaching Assistant

- Introduction to Graphical User Interfaces and Graphics (CS 3744)
 - Fall 2019 ○ With Dr. Kurt Luther
 - Spring 2020 ○ With Dr. Sang Won Lee

ACTIVITIES & AFFILIATIONS

- Fall 2020 Center for Human-Computer Interaction at Virginia Tech
- Summer 2017 Volunteer French teacher at Trinity PDO
- 2016 – 2018 Vice President of SalsaTech at Virginia Tech
- 2015 – 2018 Mentor in CS Mentor-Mentee Club at Virginia Tech
- 2015 - 2017 Residential Leadership Community
